FOR DESIGNERS, CONSULTANTS, COUNTRY CLUBS, HOTELS, & YOU.

Each piece we create is unique. Find your inspiration and work with our designers to bring your ideas to life.

What We Do

As a solution-based manufacturer of event management furniture, we vertically integrate our proprietary technology in many of our products to address Food & Beverage operational challenges. We collaborate at the design and operational level to create exactly what you want for your hotel, club, restaurant or hospitality venue.

Who We Are

Our products come to life through the skilled hands of American men and women, lovingly crafted in our factory nestled in the heart of Baltimore, MD. Proudly American-Made, our furniture bears a badge of honor that we cherish dearly. It represents our commitment to quality and supporting our local communities.

Our Services

Get Inspired

Establish inspiration for your project. Browse our portfolio and let us know what interests you. It is okay if multiple samples interest you. We can combine elements of existing designs to make something unique.

Get Started

Receive a preliminary proposal. Although your vision may have differences, we have established a ballpark budget. We will get you to the finish line with simple adjustments.

Get to the Finish Line

Still having difficulty determining what's right for you? Schedule a consultation with our Design team for a Design & Build proposal.

QUICK SHIP

Need one of our top-sellers in a pinch? Consider our new Quick Ship program with an average lead time of three weeks.

INDUCTION ANYWHERE

From mechanical cold wells to our advanced and proprietary induction technology, Lion's Wood creates specialty products that provide versatility for your event operations. If the technology or equipment is out there, we can vertically integrate just about anything into our furniture.

Lithium Battery Power

We recognized the inevitable shift to lithium battery powered hospitality equipment back in 2015. Now on our third generation system, we are the leaders in this rapidly growing segment. We are shaping the industry and pushing the threshold to what's possible. We configure battery systems to meet your specific requirements using safe and non-toxic Lithium Iron Phosphate (LifePO) batteries.

Induction

Looking to go induction? Add concealed induction holding or cooking units within most Lion's Wood buffet or action stations and maintain an ambient table surface, storing your furniture in plain sight. Not ready for induction tables? Consider our portable induction LINK boxes for on-the-go buffets. While induction is nothing new, our disruptive technology requires a fraction of the power draw compared to the competition, all while maintaining safe food handling temperatures.
